

Key Issues in Obesity Anaesthesia - at Euroanaesthesia 2024, Munich

Friday 24th May 2024, 09:45-17:30
Munich Messe Congress Centre

Join us the day before Euroanaesthesia 2024; for a pre-congress course covering the fundamental points of anaesthesia in obesity.

International Experts will discuss; aspects of and workup for bariatric surgery; the disease processes and societal consequences of obesity; the impact of obesity on the cardiovascular, respiratory system and on the pharmacology of anaesthetic drugs.

Further lectures will cover airway management, PONV, analgesia and anaesthesia strategies - pulling all the theoretical and practical aspects together.

The meeting will conclude with complex case discussions and then finish with an interactive self-assessment quiz.

Details & Full Programme at www.espcop.eu

Registration: from €145 to €200 (reductions for trainees / members)

An evening Obesity Anaesthesia Research Forum follows - see website..
